An exhibition at the Jiushi Art Museum in Shanghai is featuring artwork inspired by Go, or weiqi in Chinese, ____56____ originated in China more than 4,000 years ago.

Go is one of ____57____ earliest binary-based (基于二元的) games. The movements of the black and white pieces reflect the basic ideas of Eastern philosophy, according to Tu Ningning, who is in charge of the exhibition.

“The exhibition brings together Go culture, cutting-edge technology and contemporary art,” says Tu. “We hope ____58____ (present) the rather abstract Go game and AI in a visual context, and initiate dialogues with minimalist art, conceptual art and expressionism.”

“In a Go game, each move should serve a long-term goal. You try to lead the opponent into your trap and force them to follow your ‘____59____ (guide)’ till they lose,” explains Wang Wei, a Go player among the visitors to the exhibition.

“The players’ personalities ____60____ (reveal) during the game, and one’s weaknesses are exposed to the opponent,” she adds. “A decent winner always ____61____ (try) to beat the opponent ____62____ no more than one or two points as a gesture (姿态) of respect for the other side.”

Tu says that the balance between the black and white pieces, the beauty in the ____63____ (strategy) placement of the pieces, ____64____ the energy flow following each move inspired artists to create oil paintings, sculptures, ____65____ (digital) generated pictures and silk-screen prints for the exhibition.

It's not all that hard to build an advanced and large vocabulary. Like many things in life, it's

1 ongoing process, and the best part of the process is that there's enough room for improvement,
2 means you'll just keep getting better and better. Of course you have to work at it. You wouldn't
think that a few 3 (month) of exercise in your teens would be enough 4 the rest of
your life, and that's also true for building your vocabulary--you have to keep at it daily, and pretty
soon you will find that you have an excellent vocabulary.

One of the 5 (effect) ways to build vocabulary is to read good books. You need to 6
(real) read at least one good book a week, preferably a classic. This isn't as hard as it 7
(sound), and it is far better than any other method because you improve your vocabulary while 8
(read) an interesting piece of literature. Another nice thing is that you learn both new words and
9 (they) use unconsciously, meaning that you will tend to use the words 10 (learn) this
way in conversations almost automatically.

Few people I know seem to have much desire or time to cook. Making Chinese 1 (dish) is
seen as especially troublesome. Many westerners 2 come to China cook much less than in their
own countries once they realize how cheap 3 can be to eat out. I still remember 4 (visit)
a friend who'd lived here for five years and I 5 (shock) when I learnt she hadn't cooked once in
all that time.

While regularly eating out seems to 6 (become) common for many young people in
recent years, it's not without a cost. The obvious one is money; eating out once or twice a week may
be 7 (afford) but doing this most days adds up. There could be an even 8 (high) cost on
your health. Researchers have found that there is a direct link between the increase in food eaten
outside the home and the rise in 9 (weigh) problems.

If you are not going to suffer this problem, then I suggest that the next time you go to your
mum's home __10 dinner, get a few cooking tips from her. Cooking food can be fun. You might
also begin to notice the effects not only on your health but in your pocket.

There has been a recent trend in the food service industry toward lower fat content and less salt.
This trend, which was started by the medical community(医学界) 1 a method of fighting
heart disease, has had some unintended side 2 (effect) such as overweight and heart disease
— the very thing the medical community was trying to fight.

Fat and salt are very important parts of a diet. They are required 3 (process) the food
that we eat, to recover from injury and for several other bodily functions. When fat and salt 4
(remove) from food, the food tastes as if is missing something. As 5 result, people will eat
more food to try to make up for that something missing. Even 6 (bad), the amount of fast
food that people eat goes up. Fast food 7 (be) full of fat and salt; by 8 (eat) more
fast food people will get more salt and fat than they need in their diet.

Having enough fat and salt in your meals will reduce the urge to snack(吃点心) between meals and will improve the taste of your food. However, be 9 (care) not to go to extremes. Like anything, it is possible to have too much of both, 10 is not good for the health.

In 1863 the first underground passenger railway in the world opened in London. It ran for just under seven kilometers and allowed people to avoid terrible 1 (crowd) on the roads above as they travelled to and 2 work. It took three years to complete and was built using an interesting method. This included digging up the road, 3 (lay) the track and then building a strong roof over 4 top. When all those had been done, the road surface was replaced.

Steam engines 5 (use) to pull the carriages and it must have been 6 (fair) unpleasant for the passengers, with all the smoke and noise. However, the railway quickly proved to be a great success and within six months, more than 25,000 people were using 7 every day.

Later, engineers 8 (manage) to construct railways in a system of deep tunnels (隧道), which became known to the tube. This development was only possible with the 9 (introduce) of electric-powered engines and lifts. The central London Railway was one of the most 10 (success) of these new lines, and was opened in 1900. It had white-painted tunnels and bright red carriages, and proved extremely popular with the public.

Most of us are more focused 4 our tasks in the morning than we are later in the day. So, get an early start and try to be as productive 5 possible before lunch. This will give you the confidence you need to get you through the afternoon and go home feeling accomplished.

Recent 6 (study) show that we are far more productive at work if we take short breaks 7 (regular). Give your body and brain a rest by stepping outside for 8 while, exercising,

10 (make) sure it's a relief from daily stress rather than another thing to worry about.

In much of Asia, especially the so-called “rice bowl” cultures of China, Japan, Korea, 1
Vietnam, food is usually eaten with chopsticks.

Chopsticks are usually two long, thin pieces of wood or bamboo. They can also be made of
plastic, animal bone or metal. Sometimes chopsticks are quite artistic. Truly elegant chopsticks might
2 (make) of gold and silver with Chinese characters. Skilled workers also combine various
hardwoods and metal 3 (create) special designs.

The Chinese have used chopsticks for five thousand years. People probably cooked their food in
large pots, 4 (use) twigs (树枝) to remove it. Over time, 5 the population grew,
people began cutting food into small pieces so it would cook more quickly.

Food in small pieces could be eaten easily with twigs which 6 (gradual) turned into
chopsticks.

Some people think that the great Chinese scholar Confucius, 7 lived from roughly 551
to 479 B. C. , influenced the 8 (develop) of chopsticks. Confucius believed knives would
remind people of killings and 9 (be) too violent for use at the table.

Chopsticks are not used everywhere in Asia. In India, for example, most people traditionally eat
10 their hands.

Last year, my brother and I went to Miami for a vacation. Some of my friends who had been there before said 1 was a wonderful holiday destination. Before we went, we had planned for months. When the day came, we were ready.

After our plane landed, we went to the hotel. We had made our reservation six months 2 (early), but the man at the front desk said there had been a mistake. We 3 (tell) that our rooms hadn't been reserved for that week, 4 for the week after. I didn't understand 5 this would happen and my credit card had already been charged 6 the reservation.
